Subject: Taser - Quote

Officer Diaz,

Hello,

Attached is the quote you requested. Taser requires a signed copy of this quote (no exceptions). If a PO needs to be issued by the department there is a line on the signature page that allows you to insert that PO number. You can either scan and email me back the quote, or fax the signed quote to the fax number provided below. Please note that I will ALWAYS send confirmation to your email on receiving your signed quote so that you know your order has been processed.

- Please ensure the billing and shipping addresses are correct. Thank you for choosing TASER!
- If you are a credited Police Department or hospital you will be billed Net-30 which means you have 30 days from the date on the invoice you receive to make payment. If you paid with a credit card, your card will be charged on the date of shipment!
- Please plan accordingly for training and on your needs of these products as orders can be delivered as quickly as 2 weeks and some can take up to 4 weeks.

Just wanted to follow up and see if your agency plans on placing this order before end of December. Our prices go up after January with a 4% rate increase. I'd like to avoid this price increase if we have any way to pull this in this month. Let me know your plans. Thanks

Best Regards,

Brian

Subject: Evidence.com: Introducing improved evidence access control

Display issues? [View in browser](#)

WHAT YOU NEED TO KNOW ABOUT ACCESS LISTS

Dear Matt,

We will soon be introducing an Access List workflow that will make it simpler for you to manage evidence knowing that only the appropriate users have access. The improvements will roll out to agencies in phases, starting on August 22nd through the end of September.

With Access Lists, you will be able to manage lists that will determine who within your agency can access individual pieces of evidence. If you add a user to a list, he or she will only be able to perform actions according to his or her role. In addition, you will be able to easily restrict access to evidence. In most cases, you will only need to click a "restrict" switch to do so.

In order to prepare you for the upcoming release, we have prepared a [guide](#) that explains the new features. We will also offer online classes on the following dates to go over the update and answer any questions that you may have:

- August 17, 10am PT / 1pm ET
- August 24, 10am PT / 1pm ET
- August 31, 10am PT / 1pm ET
- September 7, 10am PT / 1pm ET

[REGISTER NOW](#)

We hope you find the updates valuable. Please contact cs@axon.com if you have any questions about them.

Sincerely,

Mike Cozart
Principal Product Manager

Subject: TASER Training Videos Request

Display issues? [View in browser](#)

VIDEOS REQUEST

Greetings TASER Instructors,

I wanted to take a few minutes to send out a request for CEW deployment videos which may be useful within future TASER training versions.

Specifically, if your agency has a video which you feel may be beneficial in regard to CEW training objectives, please feel free to submit it to us for consideration.

We're especially interested in videos which depict any of the following:

- Compliance achieved merely by arcing or displaying a CEW
- Compliance achieved via good verbalization/de-escalation skills
- Effective deployment utilizing two-shot capabilities of the X2 CEW (e.g. First shot missed or suffered clothing disconnect, 2nd shot achieved desired outcome)

- Any other videos which depict typical learning objectives (e.g. shot placement, cuffing under power, etc.)

Any agency who submits a video which is selected for use in Version 21 will be awarded a free X26P or X2 CEW; along with a holster and power source.

Submission guidelines:

1. All video submissions must be sent electronically to TASER Training Staff Instructor Ed Cangiano
2. All video submissions must be accompanied by the Video Release Agreement. This means that your agency must have full ownership of the video; as well as authority to release it to TASER Training (Axon).
3. Please include the following information, at a minimum:
 - Your full name, agency, mailing address and email contact
 - Type of video hardware which recorded the incident (e.g. Axon Flex, in-car video, etc.)
 - Brief narrative, including type of call-for-service; as well as lessons-learned, final outcome, etc.

Agencies who have videos which are selected for use will be notified via email.

Please direct video submission questions directly to Staff Instructor Ed Cangiano.

On an unrelated note, please remember that all TASER Instructors are expected to check our Training Resource page at least 72 hours prior to delivering any TASER training.

Unfortunately, we continue to suffer from instructors who aren't using the most current forms and documents; or not complying with Training Bulletins as they apply to use and submission of the exposure release forms, etc.

Thank you,

Michael Dzezinski

Head of Global CEW Training

Subject: [Webinar] Register Now: Transcription Made Simple

Display issues? View in browser

EVIDENCE.COM: TWO CLICKS FOR TRANSCRIPTION

Dear Matt,

Evidence.com now supports transcription. After registering with our CJIS-compliant provider, with just two clicks, you can select audio or video and receive a transcription file within 24 hours.

This eliminates the need to hire additional staffers and preserves the chain of custody, unlike other services that use a third-party system or require another log-in.

Join our upcoming webinar on **January 18 at 10am Pacific / 1pm Eastern** to learn more about Evidence.com's seamless transcription workflow.

REGISTER NOW

Sincerely,

TASER International, Inc.

In your position, I know you get invited to events constantly (as do I), and there's not enough time in the year to go to half of them. But I want to personally invite you to an event that will—without a doubt—be worth your time.

I'm proud to say that, in just three years, Accelerate has grown to become the largest tech conference for public safety in the world. It's been successful for a simple reason – because people get a lot from it. We did a survey, and 97% of attendees say they'd return.

Accelerate is part thought-leadership, part hands-on learning, part networking—and hopefully part fun, too. After all, we all learn better when we're engaged. We're bringing in experts from all over the globe to tackle the biggest, most challenging problems law enforcement faces. We'll be showcasing not only new technologies from Axon and 30 other companies, but inviting you to have a voice in how we create the technologies we're working on now.

I hope you'll join me in Phoenix from April 29 - May 1. And, if you go and don't think it was an excellent use of your time, send me an email, and we'll reimburse your ticket.

You can [register here](#). See you in April!

Sincerely,

Rick Smith, Axon CEO

P.S. This year at Accelerate, you'll have the chance to take Axon Records for a test-drive. We think this RMS is going to be a game changer, and to make procurement easier, we've made it a part of our Officer Safety Plan package.

AXON JOURNAL

FEBRUARY 2018

This issue of the Axon Journal features articles by some of our most exciting Accelerate 2019 speakers. Over the coming months we'll be sharing more content from our speakers – giving you a little taste of the information and thought leadership that will be in abundance at the conference.

THREE MAJOR IMPACTS OF 5G ON IN-CAR VIDEO

Right now, 5G technology is dominating the conversation in the communications industry with claims of “wire-like” speeds and experience. This means incredibly fast upload and download speeds with incredibly low latency – which will be fantastic for consumers who want faster accessibility to high quality pictures, videos, games, etc. But what does this mean for law enforcement? How will 5G impact your day-to-day operations? When thinking about in-car video systems, there will be no less than three areas of significant impact.

AXON FEBRUARY 2019 RELEASE ANNOUNCEMENT

Axon's February release extends group functionality in Axon Evidence.com and adds improvements for Redaction Studio and Inventory management. We are also happy to announce the release of an updated version of the Axon Interview Live Streaming application and the Axon Device Manager application. We are confident the new functionality and updates will make day-to-day operations easier and enhance your experience with the Axon ecosystem.

Important Information for Evidence Sync users with Axon Body 2

We have discovered an uncommon situation with Evidence Sync that could lead to the potential loss of evidence on your Axon Body 2 body worn cameras. If the computer running Evidence Sync enters sleep mode while you are using Evidence Sync to upload evidence from an Axon Body 2 camera and you swap to a different body worn camera while the computer is still in sleep mode, then Evidence Sync is unable to detect that the cameras have changed and uploads evidence as if it were from the original camera. When this occurs, evidence from the new camera may get deleted without being successfully uploaded. Please see the complete Release Notes, linked at the end of the email, for more information about an upcoming Evidence Sync update and best practices to avoid this situation until the update is released.

What's coming in the February Axon Evidence.com release:

We do not expect any downtime during the update. Refer to the [Axon Evidence.com Maintenance Schedule](#) on the Axon website for information on the update schedule times for your region.

- **Evidence Groups**

- With the February release, Axon is adding the new Evidence Groups functionality. Evidence Groups build on-top of the existing Group feature in Axon Evidence.com to enable agencies to automatically assign evidence ownership to a Group and automate

evidence access based on group membership. While users can be members/monitors of multiple groups at one time, each user and each piece of evidence can only be assigned to one Evidence Group at one time. Please see the complete Release Notes, linked at the end of the email, for more information on implementing and using Evidence Groups.

- **Redaction Studio Updates**
 - As part of our on-going Redaction Studio improvements, Axon is adding three updates with the February release: Persistent blur level, Redaction auto-reconnect, and Timeline Zoom. Please see the complete Release Notes, linked at the end of the email, for more information.
- **Device Home in Axon Evidence.com**
 - This month Axon has added the new Device Home attribute for devices to help improve agency device inventory management. The Device Home attribute can be added to devices and then used to find devices on the Axon Evidence.com Inventory search page and help an agency track where devices are kept when they are not deployed with users. Agencies can add Device Home information that corresponds to organizational or physical locations in the agency, such as precincts, divisions, or stations. Then the Device Home attribute can be set to the appropriate Device Home for the agency's devices. Please see the complete Release Notes, linked at the end of the email, for more information on using this function.
- **Resolved Issues**
 - Each month we include a list of issues that have been resolved in Axon Evidence.com. It can be easy to overlook these changes, but we want to encourage you to review this section of the release notes.

Other Axon product and field app updates:

- **Axon Evidence Partner API Updates**
 - As part of the changes for the Evidence Groups and Device Home functions, there are a number of updates to the Partner API resources. Please see the complete Release Notes, linked at the end of the email, for more information.
- **Axon Device Manager Update**
 - In late February 2019, Axon will release updated versions of Axon Device Manager (ADM) for iOS and Android. The updated versions will allow users to update device status from ADM and manage devices in bulk, instead of individually. Additionally, the Axon Device Manager for Android release will add support for Axon Signal Vehicle units - allowing users to update firmware and send device engineering log files to Axon for troubleshooting.
- **Axon Interview v3.10**
 - We are happy to announce the release of Axon Interview version 3.10. The new version includes a change to Axon Interview Live Recording UI text (the button text changes to Create Marker from Create Bookmark), allows users to choose if they want to connect to a server that has alerts, upgrades to Wowza v4.7.7, and updates the Axon Interview Live

Streaming application. Please see the complete Release Notes, linked at the end of the email, for more information about upgrading to the new version.

Coming Soon Announcements:

This section of the release notes provides advanced notice about major upcoming features, updates, and applications that might require new or updated agency processes. We want to both prepare you for and motivate you with our solutions' continuing progress.

- **Redaction Assistant** - Redaction Assistant is an add-on to the standard Axon Redaction Studio functionality. Redaction Assistant speeds up your redaction process by checking videos for common objects, such as license plates and video screens, and automatically adding mask segments to those objects. Once Redaction assistant has completed the check, Redaction Studio users can review and edit the mask segments as needed. This cuts down the amount of time you need to spend on tedious, repetitious tasks and lets you focus on more important parts of redaction. Additionally, Redaction Assistant's ability to identify objects will improve over time, further reducing the time needed for reviews and editing.
Redaction Assistant is early access and we expect to release it in April 2019. You can see a preview of Redaction Assistant in the recent [Axon Academy Redaction Studio Virtual Class video](#). The discussion of Redaction Assistant starts around 25 minutes into the video and lasts for 5 minutes. We encourage you to take a look.
- **Axon Performance** - Body-worn camera programs produce vast amounts of data. Reviewing all that data can be an extremely time-consuming, manual, and paper-based process. Axon Performance allows agencies to take a more automated, data-driven approach to this work by guiding frontline supervisors through intuitive policy review workflows that highlight officer and squad performance based on agency defined criteria. Additionally, Axon Performance can assist agencies by selecting a randomized sample of body-worn videos for supervisor review, highlighting calls for service without a body-worn video, and surfacing uncategorized evidence that's scheduled for deletion. Axon Performance is currently in early access and will be released in March 2019. See the [Axon Performance product page](#) for additional information and watch the release notes for additional product announcements.
- **User Rank** - In the coming months, Axon will deploy additional functionality to add and manage User Rank as part of a user's profile. User Ranks will allow agencies to define ranks and rank abbreviations used by their agency. Administrators can optionally assign a rank to user profiles as well as search for users by rank. Our initial plans are to expose user rank in user search and the user detail pages. In the future, rank may be used with other functionalities.
- **Axon View Admin Page** - This update adds the Axon View Admin settings page to provide a central location for maintaining Axon View application settings for your agency.

Display issues? [View in browser](#)

Background: One of the features built into the TASER 7 Conducted Energy Weapon (CEW) is the ability to upload new operating firmware as firmware upgrades are developed. Promptly installing firmware updates is critical for helping to ensure the health and serviceability of your agency's CEWs. These releases address anything from simple bugs, to enhancements that result in a more reliable weapon, to brand-new features that make your CEWs perform better in the field.

On February 13, 2019, Axon released a firmware update for the TASER 7 only. Version FW 1.3.8 key updates include the following:

- Repaired health reporting on Axon Evidence (Evidence.com) to fix errant “Major HVM Error” that was displayed for handles. **Please Note:** any handles previously reporting a Major High Voltage Module Error should be updated to 1.3.8 to confirm the error has cleared. If the error does not clear, please submit the device for repair.
- All LASERs are now enabled to remain ON during Cross-Connect and Arc functions.
- Various bug fixes and improvements

Update firmware by loading the battery pack to TASER 7 docking station. After the LED next to the battery pack turns solid green, insert the battery pack into the TASER 7 CEW to complete the update.

Contact training@axon.com for questions.

AXON JANUARY 2019 RELEASE ANNOUNCEMENT

Axon Evidence will be upgraded on January 22, 2019

Axon's January release adds important update for customers that use Evidence Sync to upload restricted evidence to Axon Evidence.com. We are also happy to announce the availability of TASER 7 support pages in Axon Evidence.com, along with other Evidence.com improvements and updates for other Axon products.

Many of this month's updates are the result of your feedback, and we want to continue to encourage you to contact us to let us know what is working and what improvements we can make.

We do not expect any downtime during the update. Refer to the [Axon Evidence.com Maintenance Schedule](#) on the Axon website for information on the update schedule times for your region.

What's coming in the January Axon Evidence.com release:

- **Update for Restricted Evidence Uploaded from Evidence Sync**
 - Based on customer feedback, Axon has made a change to how users are added to the Axon Evidence.com access list for restricted evidence. With this change, when a video is uploaded from Evidence Sync with a restricted category is applied, only the user who uploaded the video is added to the access list. In this situation, if the assigned body camera user is different than the uploader, then the assigned user will not have access to the restricted evidence.
- **TASER 7 Support in Axon Evidence**

- With the January release, Axon is making support for TASER 7 Conducted Energy Weapons (CEW) generally available in Axon Evidence.com. This support adds a new Inventory page, used to track the health and status of TASER 7 handles, cartridges, and batteries. Please see the complete Release Notes, linked at the end of the email, for more information.
- **Resolved Issues**
 - Each month we include a list of issues that have been resolved in Axon Evidence.com. It can be easy to overlook these changes, but we want to encourage you to review this section of the release notes.

Other Axon product and field app updates:

- **Axon Evidence Partner API Updates**
 - This update adds an optional rankId parameter to the response when getting user information. Please see the complete Release Notes, linked at the end of the email, for more information.
- **Evidence Upload XT Update**
 - An updated version of Evidence Upload XT will be released in mid-January. The updated version will enforce the Evidence Upload XT Bandwidth Settings managed from the Axon Evidence.com Admin page, allow users to set up folders for automatic file uploads to Axon Evidence.com, and has general bug fixes and product improvements. Note: This update was originally planned for late-December 2018, but was delayed to avoid conflicting with the year-end holidays.
- **Axon Capture for iOS Update**
 - In mid-January 2019, Axon will release an updated version of Axon Capture for iOS (version 4.1). The changes for this version include: added security enhancements, removed the ability to create a new Axon Evidence account from the app, and resolved an Axon Citizen issue by removing the no category option from the category selector.
- **Axon Interview v3.9.17**
 - We are happy to announce the release of Axon Interview version 3.9.17 with added support for Axis IP cameras and improved I/O module functionality. The updated version will be available starting January 22, 2019. Please see the complete Release Notes, linked at the end of the email, for more information.

Coming Soon Announcements:

This section of the release notes provides advanced notice about major upcoming features, updates, and applications that might require new or updated agency processes. We want to both prepare you for and motivate you with our solutions' continuing progress.

- **Evidence Groups** - In February Axon will roll out new Evidence Groups functionality. Evidence Groups will build on-top of the existing Group feature in Axon Evidence.com to enable agencies to assign evidence ownership to a Group and automate evidence access based on group membership. Currently, the Group feature only allows group monitors to access evidence recorded by users that are currently group members. With Evidence Groups, users with a supervisor role can always access all evidence assigned to their groups; even if the user that recorded the evidence is no longer a member of the group. Note that while users can be members/monitors of multiple groups at one time, each user and each piece of evidence can only be assigned to one Evidence Group at one time.
- **User Rank** - In the coming months, Axon will deploy additional functionality to add and manage User Rank as part of a user's profile. User Ranks will allow agencies to define ranks and rank abbreviations used by their agency. Administrators can optionally assign a rank to user profiles as well as search for users by rank. Our initial plans are to expose user rank in user search and the user detail pages. In the future, rank may be used with other functionalities.
- **Device Home in Axon Evidence** - In February Axon will add a new Device Home attribute for devices to help improve agency device inventory management. The Device Home attribute can be added to devices and then used to find devices on the Axon Evidence.com Inventory search page and help an agency track where devices are kept when they are not deployed with users. Agencies can add Device Home information that corresponds to organizational or physical locations in the agency, such as precincts, divisions, or stations. Then the Device Home attribute can be set to the appropriate Device Home for the agency's devices.
- **Redaction Studio Timeline Zoom Feature** - As part of our on-going Redaction Studio improvements, Axon will be adding a timeline zoom feature that allows users to zoom in and out on the segment timeline for finer control and placement of video and audio masks.
- **Axon Interview Live Streaming** - In February Axon will release an refreshed version of the Axon Interview Live Streaming client. The updated version will have a redesigned user interface, along

with ability to monitor more rooms simultaneously, add bookmarks during an interview, and collaborate with other users on notes within the live streaming application, which can be viewed in Axon Evidence.com. Additionally, the update will provide useful information, such as a health check of the cameras and how long the interview has been recording.

- **Redaction Assistant** - In December Axon launched early access for Redaction Assistant. We are getting feedback from our early access partners and improving the overall processes. Redaction Assistant is an add-on to the standard Axon Redaction Studio functionality. Redaction Assistant speeds up your redaction process by checking videos for common objects, such as license plates and video screens, and automatically adding mask segments to those objects. Once Redaction assistant has completed the check, Redaction Studio users can review and edit the mask segments as needed. This cuts down the amount of time you need to spend on tedious, repetitious tasks and lets you focus on more important parts of redaction. Additionally, Redaction Assistant's ability to identify objects will improve over time, further reducing the time needed for reviews and editing.
- **Axon Performance** - programs produce vast amounts of data. Reviewing all that data can be an extremely time-consuming, manual, and paper-based process. Axon Performance allows agencies to take a more automated, data-driven approach to this work by guiding frontline supervisors through intuitive policy review workflows that highlight officer and squad performance based on agency defined criteria. Additionally, Axon Performance can assist agencies by selecting a randomized sample of body-worn videos for supervisor review, highlighting calls for service without a body-worn video, and surfacing uncategorized evidence that's scheduled for deletion. Axon Performance is currently in early access and will be released late in the first quarter of 2019. See the [Axon Performance product page](#) for additional information and watch the release notes for additional product announcements.

The best price on Accelerate, extended to Jan. 31.

ONE LAST CHANCE

Customers told us that our early-bird pricing deal was gone before they even had a chance to take advantage of it. We knew we needed to remedy this tragic situation. So, we're extending our special offer until the end of the month.

But once it's gone, it's gone...and you won't see a better ticket price for Accelerate this year, guaranteed.

We know that you may still be working out budgets or getting approval. No problem. All you need to do to lock in early bird pricing is to register before January 31st. You can submit payment at a later date. Need help getting approval? We can help with that, too, with a justification letter.

Lock in the guaranteed lowest price today!

Display issues? [View in browser](#)

Hello,

I'd like to ask for your help. This year, there is a book being published called "The Thin Blue Lie: The Failure of High Tech Policing." It's written by Matt Stroud, a person who, shall we say, holds police (and Axon) in very low regard.

I am also writing a book, called "The End of Killing" – which is a counterpoint, setting forth a strategy for how the continued evolution of less-lethal capabilities will save ever more lives... culminating when we reach the performance of something like the Star Trek Phaser.

Critics like Mr. Stroud rely upon telling the stories of where lives are lost. We need to balance his negative narrative by telling the stories of the lives you all have saved, and the risks you undertake to do so.

If you have a story about how you or someone else from your agency used some of our technology to save a life, or to better protect the public, would you mind sharing it with me? We can't just respond with statistics, we need the human stories of the amazing and heroic work you do.

If you respond and share a story, I will take your email as permission to retell your story. Write it exactly as you would want it told (redacting personal identifying information

as appropriate). Feel free to identify your agency, your officers, or not. I will assume what you send is ready for sharing.

Also, please send me your address, so we might send you back a little gift as a thank you for helping us tell the story of the good work we do together.

Let me conclude by thanking you for doing an often thankless job. I am sorry for people who feel they need to smear you, and I am committed to pushing back against them.

I am thankful to be a part of your community, and a part of your team. I can't wait to read more of your stories, and I will share them widely with the rest of the team here at Axon. It frequently puts a lump in our throat to learn of how you put the heroics together with our technology to do amazing things.

For those of you who didn't see it, here's a link to the tribute we put together with OneRepublic to celebrate and thank the men and women in blue: <http://go.pardot.com/e/636291/4W-n9VhvEbs/3rjbhx/924707475?h=1bIkOa2eRCznIM9xM-L1BLJeIz14tHCD5LsHFw9kRI>

Register by January 14 to save up to \$200 on the leading public safety tech conference that 97 percent of 2018 attendees recommend.

At Accelerate, you will be surrounded by the best in public safety — meet up with colleagues from around the globe and learn from world-class speakers.

Choose from a range of sessions on topics affecting your community, such as officer health and well-being and crisis management. You will also get a deeper look into current and upcoming Axon technologies and have the chance to learn from over 30 other tech and public safety companies.

Lowest Price Guarantee

This is the lowest price we are offering on registration — get in while you can!

Need help justifying your trip? We've prepared an [email proposal](#) for you. All you need to do is copy and paste it into an email to your boss.

Important new information.

Display issues? [View in browser](#)

Background: To ensure that our training accounts for the latest updates in technology and public-safety best practices, Axon periodically updates its training materials with important new information.

Version 21 of the TASER Instructor and User training courses has been released and is **effective January 14, 2019**. Version 21 supersedes all prior training revisions.

About Version 21

With the release of Version 21, Instructors will have the ability to receive certification on up to three Conducted Energy Weapons (CEW). We have reformatted the instructor course to provide more hands-on training with the weapons, in depth scenarios and Virtual Reality training. Students will also learn how to develop and safely implement scenarios, isolation drills and conduct teach-backs to hone their instructor skills. TASER X26P, X2 and TASER 7 CEW courses are included in Version 21 and TASER M26, X3 and X26 CEW courses are available upon request. The requirements for the certification courses have changed to the following:

- Instructor certification for the X26P, X2 and TASER 7 CEW is a total of 20 hours (4 hours online and 16 hours classroom with a Master Instructor). All students will be required to attend the full course to obtain certification or renew a certification (no separate “recertification” course). The fee for an Instructor certification is \$495 per student. We are continuing to offer the online option for internally conducted courses. Submit your request.
- Master Instructor and Instructor certifications will include certification on the TASER 7 CEW, and students may choose optional certifications on the X26P and/or X2 CEWs at no additional cost. Master Instructors must have all certifications in order to teach for Axon, and for consideration of Senior Master Instructor promotion.

Version 21 curriculum key updates include:

- TASER 7 CEW content
- Enhanced explanation of CEW technology as it relates to electricity and NMI
- IACP Model Policy
- Improved interactive online experience
- Conducted Electrical Weapon was changed to Conducted Energy Weapon
- Changes to Instructor and User Release requirements and other pertinent information from V20.2 Training Bulletins

Go to http://go.pardot.com/e/636291/training-resources/3r7xpl/918342535?h=eNPo0xkN514Q0R_GdqEsYYMkDX08WIVJT-MLj_Sn9dU to download all instructor resources. This folder contains the most recent warnings, user and instructor release forms, training forms, certificates, training drills and scenarios, videos and other instructor resources.

We will mail the Version 21 DVD to any instructor who is not able to download material due to agency policies. If you have any questions regarding this Training Bulletin, Version 21, download issues, or need to request a DVD, please contact the TASER Training Department at training@taser.com.

Thank you for your continued support of TASER CEWs!

AXON JOURNAL

DECEMBER 2018

Happy holidays, everyone! It's the season of giving and togetherness, and we've put together a host of information to match that holiday spirit. Webinars, case studies, a limited time discount... we've got something for everyone in this issue of the Axon Journal.

LEARN HOW TO BAND TOGETHER TO TACKLE

BUDGET CONSTRAINTS

It's no secret that budget constraints are a constant inconvenience for law enforcement agencies. Long needs lists + short funds = under-quipped officers and potentially underserved communities. When faced with these problems, agencies must turn to out-of-the-box solutions – like partnering with other agencies to fill needs. Watch this webinar to learn more.

[WATCH THE WEBINAR](#)

USING MODERN TECHNOLOGY TO COMBAT DOMESTIC VIOLENCE

Domestic violence is a huge public health and social problem worldwide, often leading to long-term mental and physical health issues. To find out more about how police deal with domestic abuse cases, we ran a study on the Queensland Police Service in Australia. The numbers are startling: 25% of women in Australia experience domestic

violence while in a relationship, and Queensland law enforcement responds to 5,000 cases a week. Click or tap the link below to learn more about how body cameras have helped to deal with this important issue.

[CONTINUE READING](#)

PUSHING PREVENTION: *OXNARD, CA AXON CITIZEN CASE STUDY*

Oxnard PD implemented Axon Citizen for Officers in December of 2017 and leveraged Citizen for Communities as an early access partner in June of 2018. Soon after rolling out the service, the department realized the potential crime deterrence

possibilities in addition to the inherent time-saving and efficiency-adding conveniences. Click or tap the link below to learn more about Axon Citizen for Officers and the benefits that Oxnard PD has experienced.

[LEARN MORE](#)

IT'S NOT TOO LATE TO BE EARLY

Axon Accelerate 2019 will be here before you know it, and the window to claim your early bird discount is closing soon. We are offering \$200 off

the regular price with early bird pricing now through January 15th. Group pricing is available as well, with \$200 off the regular price for the first two attendees and \$499 off the regular price for each additional attendee. You can register now and pay in the new year.

Time is running out, so make your reservations to what last year's Accelerate attendees said was "the best conference they have ever been to."

CAUTION - EXTERNAL SENDER - THIS EMAIL ORIGINATED OUTSIDE OF THE CITY'S EMAIL SYSTEM Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Customer,

You probably get a lot of survey requests, and I can understand if you ignore most of them (to be candid, so do I).

But I want you to know that I value your input so much, that part of my employee's pay is directly tied to the results of this survey. They are obsessed with making you successful and want to know how they're doing.

So as a personal favor, please take three minutes to let us know how we're doing.

LAUNCH SURVEY: http://go.pardot.com/e/636291/r-Z6BLJPY/3r412l/916038297?h=zgfwOPCIOFpS_hUtQVD-E9h-BBeEyYUN_qDfsdyPP34

You have my assurance that your feedback will represent hundreds of other customers and echo in the halls of the Axon headquarters.

Thank you for your service to our communities, and happy holidays to you and your family!

Rick Smith
Founder and CEO, Axon

P.S. As a small token of gratitude, we'll be randomly selecting 50 participants and giving them \$20 Amazon gift cards.

EVIDENCE.COM SERVICE UPDATE

Earlier today we experienced a disruption in service with our Axon Docks, Evidence Sync, Web Upload, and other upload mechanisms that caused uploads of log files to be delayed; however, the issue has been resolved. At this point all uploads are working again as normal.

Our Engineering team will continue to investigate this issue to put in place preventative measures. Thank you for your patience and if you have any questions, please don't hesitate to contact our support team.

DECEMBER 2018 RELEASE ANNOUNCEMENT

Evidence.com will be upgraded on December 11, 2018

Axon's December release adds a number of small, but important, updates to Evidence.com and other Axon products. Many of this month's updates came to us as customer feedback, and we want to continue to encourage you to let us know what is working and what improvements we can make.

We do not expect any downtime during the update. Refer to the [Evidence.com Maintenance Schedule](#) on the Axon website for information on the update schedule times for your region.

What's coming in the December Evidence.com release:

- **Evidence.com Admin Page Updates**
 - This update separates the device setting pages into discrete entries, making it easier to find the device settings you are looking for, and adds a new page to manage bandwidth settings for the Evidence Upload XT application.
- **Axon Citizen Update**
 - This update improves the mechanism Axon uses to gather consent for using cookies on Axon Citizen for agencies in the United Kingdom and European Union.
- **Evidence Created and Evidence Deleted Reports Update**
 - To enable easier association between evidence and devices, we are adding the device serial number to the Evidence Created and Evidence Deleted reports. If your agency uses these reports with any automated tools, you may need to make minor modifications to ensure the

tools continue to work as intended. The change will add a Serial Number column (camera_serial_number) between the device_id column and the notes column for both reports.

- **Segmented Download Links General Availability**

- With the December release, we are pleased to announce the general availability of Segmented Download Links for all agencies. Please see the complete Release Notes for more information.

- **Resolved Issues**

- Each month we include a list of issues that have been resolved in Evidence.com. It can be easy to overlook these changes, but we want to encourage you to review this section of the release notes.

Other Axon product and field app updates:

- **Evidence.com Partner API Updates**

- This update adds the ability to get an evidence access link using the Evidence.com Partner API. Additionally, the revised Evidence.com Partner API Guide will include updated examples of how to user the filter search parameter.

- **Evidence Upload XT Update**

- An updated version of Evidence Upload XT will be released at the same time as the December Evidence.com release. The updated version will enforce the Evidence Upload XT Bandwidth Settings managed from the Evidence.com Admin page, allow users to set up folders for automatic file uploads to Evidence.com, and has general bug fixes and product improvements.

- **Axon View for iOS Update**

- Before the end of 2019, Axon will release an updated version of Axon View for iOS. This update will significantly simplify the process for pairing and reconnecting to an Axon Body 2 or Axon Flex 2 camera. Please see the complete Release Notes for more information.

- **Axon View XL Updates**

- An updated version of Axon View XL for Axon Fleet and Axon Fleet 2 will begin deployment on December 12. The updated version has changes to the View XL user interface, along with general bug fixes and product improvements. Please see the complete Release Notes for more information on the changes.

Coming Soon Announcements:

This section of the release notes provides advanced notice about major upcoming features, updates, and applications that might require new or updated agency processes. We want to both prepare you for and motivate you with our solutions' continuing progress.

- **TASER 7 Support in Evidence.com** - In January 2019 Axon will make support for TASER 7 Conducted Energy Weapons (CEW) generally available in Evidence.com. This support adds a new Inventory page (for tracking the health and status of TASER 7 handles, cartridges, and batteries) and an Administration page for controlling TASER 7 settings. If you have questions about accessing the Evidence.com TASER 7 pages before the January release, please contact your Axon representative.
- **Redaction Assistant** - In December Axon is launching early access for Redaction Assistant. Redaction Assistant is an add-on to the standard Axon Redaction Studio functionality. Redaction Assistant speeds up your redaction process by checking videos for common objects, such as license plates and video screens, and automatically adding mask segments to those objects. Once Redaction assistant has completed the check, Redaction Studio users can review and edit the mask segments as needed. This cuts down the amount of time you need to spend on tedious, repetitious tasks and lets you focus on more important parts of redaction. Additionally, Redaction Assistant's ability to identify objects will improve over time, further reducing the time needed for reviews and editing.
- **Axon Performance** - Body-worn camera programs produce vast amounts of data. Reviewing all that data can be an extremely time-consuming, manual, and paper-based process. Axon Performance allows agencies to take a more automated, data-driven approach to this work by guiding frontline supervisors through intuitive policy review workflows that highlight officer and squad performance based on agency defined criteria. Additionally, Axon Performance can assist agencies by selecting a randomized sample of body-worn videos for supervisor review, highlighting calls for service without a body-worn video, and surfacing uncategorized evidence that's scheduled for deletion. Axon Performance is currently in early access and will be released during the first quarter of 2019. See the [Axon Performance product page](#) for additional information and watch the release notes for additional product announcements.

Subject: Two emotional tribute videos to law enforcement that you need to watch

CAUTION - EXTERNAL SENDER - THIS EMAIL ORIGINATED OUTSIDE OF THE CITY'S EMAIL SYSTEM
Do not click links or open attachments unless you recognize the sender and know the content is safe.

AXON JOURNAL

NOVEMBER 2018

Sometimes “thank you” doesn’t say enough. And at Axon, we feel that it isn’t even said often enough. That’s why the focus of this month’s Axon Journal is honoring all of the men and women who put their lives on the line to keep our communities safe.

EMOTIONAL LAW ENFORCEMENT

TRIBUTE VIDEO GOES VIRAL

Law enforcement officers live anything but an ordinary existence. They're our community members and guardians. Our neighbors and night watchmen. Our friends and our first responders. And they don't always get the credit they deserve.

In recognition of those special, often under-appreciated men and women, Axon teamed up with chart-topping band One Republic to create a tribute video with One Republic's song "I Lived" serving as the soundtrack.

[WATCH THE VIDEO](#)

GENERAL STAN McCHRYS TAL TO DELIVER KEYNOTE AT AXON ACCELERATE 2019

WE ASKED. YOU VOTED.

And now we're excited to announce that former US Army General Stan McChrystal will be the keynote speaker for Axon Accelerate 2019 – the leading technology conference for public safety professionals.

“We are honored to invite one of America's greatest military leaders to speak at Axon Accelerate,” says Axon CEO and founder, Rick Smith. “As the former head of US and international forces in Afghanistan, a former leader of Joint Special Operations Command and author of *Team of Teams: New Rules of Engagement for a Complex World*, General McChrystal will provide our

attendees with invaluable insight into leadership strategies and the relentless drive to protect our communities.”

Click or tap the link below to learn more about Axon Accelerate and to see General McChrystal's scheduled speaking times.

[VIEW THE SCHEDULE](#)

RETURN OF THE RISE AWARDS

We're incredibly proud to have so many heroic partners doing incredible work in the world, and we felt the need to recognize them. We're excited to announce that we will again be recognizing standouts from law enforcement with our RISE Awards ceremony at Axon Accelerate 2019.

For this past year's RISE Awards at Accelerate, we were honored to recognize members of the LVMPD for their heroic actions during the tragic Mandalay Bay mass shooting that took place just over a year ago. Click or tap the link below to hear their story.

[SEE THEIR STORY](#)

IT'S NOT TOO LATE TO BE EARLY

Network with peers and learn from experts. Find out what's on the horizon for law enforcement. Get hands-on training with cutting edge technologies and techniques. Axon Accelerate 2019 brings

together the best and brightest in public safety and beyond from around the world to explore the challenges you face every day.

And now through January 15th we are offering \$200 off the regular price with early bird pricing. Agency group pricing is available as well, with \$200 off the regular price for the first two attendees and \$499 off the regular price for each additional attendee. You can register now and pay in the new year.

Accelerate technology and public safety

Keeping up with new technology is no easy task – especially when it comes to public safety. Security. Compliance. Data protection. What's right for right now? What about 10 years from now?

Join the conversation at our premiere public safety conference: Axon Accelerate 2018.

Don't miss the opportunity to join other IT Professionals and leaders at this year's leading technology conference for Public Safety. Accelerate offers the opportunity to learn latest advancements in technology and security and network with peers.

Join us at Accelerate, June 5th-6th in Scottsdale, AZ, where we're hosting a multitude of sessions that were developed with you in mind:

- **FUTURE SECURITY TRENDS: HOW TO PREPARE** - The future of security technology is happening in real time. Learn about the coming security challenges facing your city and agency and how to start preparing now.
-
- **THE POWER OF CAD/RMS INTEGRATION** - gain valuable insight into how evidence can be managed most effectively and how data accuracy can be improved with Evidence.com.
-
- **SECURITY BEST PRACTICES: HOW TO PREVENT YOUR AGENCY FROM BEING HACKED** - Solid security doesn't have to be expensive. Learn about the most impactful security practices that can be employed without expensive software or consultants.
-
- **INTEROPERABILITY OF DIGITAL SYSTEMS** - Learn what happens when your technology interacts with other devices, systems or networks to provide a multi-modal evidence gathering capability that will save your city and agency time and money.

There's no better opportunity to connect with your peers and new technology. Join us June 5-6 at Axon Accelerate 2018!

We received City Council approval last night for the funding of Taser's.

I have attached the signed quote Q-143350-2.

Our department purchase order # 180809 is currently being routed. You will receive an email copy in the next couple of days.

Please let Rachel or I know if there is anything else you need from us.

Thank you,

Michelle Blank

Re: Sole Manufacturer Letter and Certification of USA Assembled for TASER International, Inc.'s Conducted Electrical Weapons, on-Officer Cameras, and Evidence.com Digital Evidence Solutions

TASER International, Inc. (TASER), is the sole manufacturer for TASER brand conducted electrical weapons (CEWs) and Axon brand camera products. TASER is also the sole developer and provider of Evidence.com Software as a Service product. This letter will also certify that TASER brand CEWs and Axon brand camera products are all USA assembled products.

Please contact your local TASER sales representative or call us at 1-800-978-2737 with any questions.

Sincerely,

Hello,

Your signed quote has been received. I will get this order processed right away. Taser orders can ship out and be delivered as quickly as within 2 weeks with some orders taking up to 4 weeks. This is dependent on what specific products are ordered and the inventory of these items. If it has been a week or two and you are curious if your order has shipped, please send me an email and I will be happy to check on the status and see if there is a FedEx tracking number available at that time!

- For all NON-SMART cartridge orders: 1-2 weeks for shipment.
- For any order with smart cartridges: 3-4 weeks (but know it will likely go faster)

Please feel free to reach out if you need anything else at all.

Thank you!

Subject: Taser - Quote

Importance: High

Rachel,

Hello,

Attached is the quote you requested. Taser requires a signed copy of this quote (no exceptions). If a PO needs to be issued by the department there is a line on the signature page that allows you to insert that PO number. You can either scan and email me back the quote, or fax the signed quote to the fax number provided below. Please note that I will ALWAYS send confirmation to your email on receiving your signed quote so that you know your order has been processed.

- Please ensure the billing and shipping addresses are correct. Thank you for choosing TASER!
- If you are a credited Police Department or hospital you will be billed Net-30 which means you have 30 days from the date on the invoice you receive to make payment. If you paid with a credit card, your card will be charged on the date of shipment!
- Please plan accordingly for training and on your needs of these products as orders can be delivered as quickly as 2 weeks and some can take up to 4 weeks.

Rachel,

Hello,

Attached is the quote you requested. Taser requires a signed copy of this quote (no exceptions). If a PO needs to be issued by the department there is a line on the signature page that allows you to insert that PO number. You can either scan and email me back the quote, or fax the signed quote to the fax number provided below. Please note that I will ALWAYS send confirmation to your email on receiving your signed quote so that you know your order has been processed.

- Please ensure the billing and shipping addresses are correct. Thank you for choosing TASER!
- If you are a credited Police Department or hospital you will be billed Net-30 which means you have 30 days from the date on the invoice you receive to make payment. If you paid with a credit card, your card will be charged on the date of shipment!
- Please plan accordingly for training and on your needs of these products as orders can be delivered as quickly as 2 weeks and some can take up to 4 weeks.

Subject: Fontana PD Taser Cartridge Order

Importance: High

Hello Steve,

I placed an order with you earlier in the year for 50 Taser cartridges. Could I please get an updated quote for 50 – 25' Hybrid (item #44203) cartridges?

Thank you for your assistance,

Rachel Lopez

APPROVED BY

VENDOR COPY

PURCHASING OFFICER

TERMS AND CONDITIONS

1. **PAYMENT.** Payments shall be made, upon submission of itemized invoices in Duplicate, of the prices stipulated here in for supplies delivered and accepted or services rendered and accepted, less deductions, if any, as herein provided. Payment on partial deliveries may be made whenever amounts due so warrant, when requested by the Vendor and approved by the Purchasing Agent. Terms are Net 30 Days.
2. **LICENSE.** All companies doing business in the City of Fontana are required to provide a valid City of Fontana business license prior to payment of any invoice(s) submitted.
3. **INSPECTION.** All materials and workmanship are subject to inspection and test by the City for compliance and specifications as included herein. In the event articles or services are defective or not in conformity with this order, the City shall have the right either to reject the items or require correction. Defective articles or services shall be removed from City premises and/or corrected by and at the expense of the Vendor. Failure to inspect and accept or reject shall not relieve the Vendor from responsibility for compliance with specifications. Final acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.
4. **RESPONSIBILITY.** Unless otherwise specified, the Vendor shall be responsible for all items covered by this purchase order until delivered at the designated delivery point, and the Vendor shall bear all risks as to items rejected or requiring correction after notice of such rejection or correction is given.
5. **CHANGES.** This purchase order may at any time, by written order, be changed in regards to the materials or services to be furnished, quantities ordered, unit price, discount, delivery point or arrangement, terms, or any other matter affecting a valid order. In the event such change causes an increase or decrease in the cost of performance hereunder, an equitable adjustment will be made for the cost thereof, subject to the approval of the Purchasing Agent, and written notice given therefore.
6. **VARIATIONS-QUANTITIES.** No variation in the quality or quantity of any item called for by this purchase order shall be acceptable except in pursuance of written change order so authorizing and no change in cost shall be valid unless so ordered.
7. **TERMINATION.**
 - A. **Termination for Default:** Contract may be terminated by the City, in whole or in part, whenever the City shall determine that the Contractor has failed to meet the requirement(s) of the Contract. The City has the right to terminate for default of:
 1. The Contractor fails to make delivery of acceptable supplies in an acceptable manner within the time specified in the resultant Contract; or
 2. The Contractor fails to satisfactorily perform any other term or condition of the resultant Contract; or
 3. The Contractor fails to make progress so as to endanger timely performance of the Contract.

Any termination for default shall be effected by written notice to the contractor of the termination, specifying the acts or omissions of the Contractor constituting the default and the effective dates of the termination. The Contractor shall not be liable if the failure to perform the resultant Contract arises from the causes beyond the control and without the fault or negligence of the Contractor. The Contractor will be liable for default or any subcontractor, regardless of tier. However, if the cause is beyond the control of both the contractor and subcontractor and without the fault of either, the contractor will not be liable to the failure to perform, unless the supplies could have been obtained from the other sources in sufficient time for the Contractor to meet the required delivery schedule.

After termination for default, the City may acquire, under the terms and in the manner the Purchasing Services Agent considers appropriate, goods identical or similar to those required by the Contract, and the contractor will be liable to the City for the cost of those goods in excess of the unexpected Contract amount.

Upon termination of the contract, all finished or unfinished goods provided by the Contractor and not yet delivered, rendered and accepted by the City shall, at the City's option, become the City's property. The City shall pay the contractor fair and equitable compensation for satisfactory performance prior to delivery of notice of termination, less the amount of damages, caused by the Contractor's breach. If the damages are more than the compensation payable to the Contractor, the Contractor shall pay the difference to the City promptly upon demand. The term "damages" as used in this paragraph includes, but is not limited to, attorney's fees.

If after termination it is found that the Contractor was not at default, or that the delayed was excusable, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to sub-paragraph "B" below, entitled "Termination for Convenience."

The rights and remedies of the City described herein shall be addition to any other rights and remedies provided by law or under any other provision of the Contract.

 - B. **Termination for Convenience:** The contract may be terminated by the City, in whole or in part, whenever, the Purchasing Agent determines, in his sole discretion, that is in the City's best interests. Any such termination shall be effected by a written notice of termination to the Contractor specifying the extent to which the Contract is terminated and the effective date of the termination.
 1. After receipt of a notice of termination and except as otherwise directed, the Contractor shall:
 - a) Stop all performance on the date indicated and to the extent specified;
 - b) Place no further orders or subcontractors for materials, except as necessary for the completion of such portion(s) of the Contract not terminated;
 - c) Terminate any and all subcontractors' agreements and with the approval of the City, settle all outstanding liabilities and termination settlement proposal arising from the termination of subcontractors;
 - d) If directed by the City, transfer title and deliver to the City the Contractor's Work in Process, finished goods and other material produced or acquired, including any completed or partially completed plans, drawings, information and other property that, if the Contract had not been terminated, would be required to be furnished to the City. If the City does not exercise this right, the Contractor shall use his best efforts to sell such goods and materials in accordance with the provisions of Commercial Code Section 2706;
 - e) Complete performance of any portion of the Contract terminated;
 - f) Submit to the Purchasing Agent a termination claim in the form perceived by the Purchasing Agent. The Contractors shall not be reimbursed for and waives any right to receive anticipatory profits not earned up to the effective date of termination.
 2. The Contractor shall be entitled to recover the following costs in a termination for convenience:
 - a) The Contractor price for the completed goods accepted by the City but not previously paid for;
 - b) Costs already incurred in the performance of the portion of the Contract terminated;
 - c) The reasonable costs of settlement expenses for the portion of the Contract terminated; and
 - d) The cost of settling and paying any termination settlement proposals under terminated subcontractors that are properly chargeable to the terminated portion of the Contract.
 3. In arriving at the amount due to the Contractor, the following shall be deducted:
 - a) All unliquidated, advance or other payments to the Contractor under the terminated portion of the Contract; and
 - b) Any claim which the City has against the Contractor under the Contract or any other contract.
 - C. **Termination for Lack of Appropriation:** If funds are not appropriated or if funds are not otherwise made available to the City for continued performance of the Contract for any fiscal period covered by the Contract, the Contract shall be automatically terminated as of the beginning of the fiscal year for which funds were not appropriated or otherwise made available; however, this will not effect either the City's right nor the Contractor's rights under any other termination provision in the Contract. The effect of a termination of the resultant Contract under this subparagraph "C" will be to discharge both the City and the Contractor both to discharge both the City and the Contractor from further performance of the Contract, but not from their obligations existing at the time of termination. The Contractor shall be reimbursed for any non-recurring costs incurred but not amortized in the price of the goods delivered under the Contract.
 - 8. **LIABILITY.** The City shall not be responsible for any damage that may accrue by reason of death or injury of the person of the Vendor's officers, agents, employees, invitees, or licensees or for damages to any property of the Vendor, or that may arise or be set up at any time because of personal injury or damage to property sustained by any other person or persons, which may have been caused or contributed to, approximately or remotely, by reason of or in the course of performance of this purchase order. The Vendor shall assume full responsibility for the defense or any claim arising under this purchase order and the Vendor shall save, keep, and bear harmless the City, all officers and employees thereof from all damages, costs, or expense, in law or in equity because of personal injury, property damages, or alleged or actual patent infringements based on the performance of this purchase order or asserted against it.
 - 9. **DISPUTES.** All disputes concerning questions of fact which may arise under this purchase order, and not disposed of by mutual consent, shall be decided by the Purchasing Agent.
 - 10. A copy of the freight bill MUST accompany invoices whenever freight charges are prepaid and added to invoice.
 - 11. If, for any reason, an over-payment is made, we require prompt refund via your property check, in order that we can expedite clearing of the overpayment through our accounting system.
 - 12. The articles covered by this purchase order or contract must conform with safety order of the California Division of Industrial Safety.
 - 13. This purchase order may be accepted by any means or part performance, provided Seller unqualifiedly agrees to all the terms and conditions appearing on the face hereof or added supplements hereto including those terms and conditions set forth on the purchase order. In the event Seller's acceptance proposed additional or different terms, such terms shall not be binding upon City of Fontana except to the extent City of Fontana gives its specific agreement in writing to such terms.

Good Afternoon Joseph,

I was given quote #Q-85622-3 from Sergeant Scott Snyder to process. Are City requires three quotes for a purchase over \$2,500.00. It looks like Taser International is the sole source distributor for these type of Tasers. If this is the case, is it possible to get a letter on your letterhead explaining this? Please feel free to contact me if you have any questions.

Thank you,

Rachel Lopez

Subject: Fontana PD Taser Quote

Good Afternoon Joseph,

I was given quote #Q-85622-3 from Sergeant Scott Snyder to process. Are City requires three quotes for a purchase over \$2,500.00. It looks like Taser International is the sole source distributor for these type of Tasers. If this is the case, is it possible to get a letter on your letterhead explaining this? Please feel free to contact me if you have any questions.

Thank you,

Rachel Lopez

Hello,

Your signed quote has been received. I will get this order processed right away. Taser orders can ship out and be delivered as quickly as within 2 weeks with some orders taking up to 4 weeks. This is dependent on what specific products are ordered and the inventory of these items. If it has been a week or two and you are curious if your order has shipped, please send me an email and I will be happy to check on the status and see if there is a FedEx tracking number available at that time!

- For all NON-SMART cartridge orders: 1-2 weeks for shipment.
- For any order with smart cartridges: 3-4 weeks (but know it will likely go faster)

Please feel free to reach out if you need anything else at all.

Thank you!

Importance: High

Rachel,

Hello,

Attached is the quote you requested. Taser requires a signed copy of this quote (no exceptions). If a PO needs to be issued by the department there is a line on the signature page that allows you to insert that PO number. You can either scan and email me back the quote, or fax the signed quote to the fax number provided below. Please note that I will ALWAYS send confirmation to your email on receiving your signed quote so that you know your order has been processed.

- Please ensure the billing and shipping addresses are correct. Thank you for choosing TASER!

- If you are a credited Police Department or hospital you will be billed Net-30 which means you have 30 days from the date on the invoice you receive to make payment. If you paid with a credit card, your card will be charged on the date of shipment!
- Please plan accordingly for training and on your needs of these products as orders can be delivered as quickly as 2 weeks and some can take up to 4 weeks.

TASER INTERNATIONAL IS NOW AXON

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

Print or type See Specific Instructions on page 2.	1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank. Axon Enterprise, Inc.	
	2 Business name/disregarded entity name, if different from above 	
	3 Check appropriate box for federal tax classification; check only one of the following seven boxes: <input type="checkbox"/> Individual/sole proprietor or <input checked="" type="checkbox"/> C Corporation <input type="checkbox"/> S Corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Trust/estate <input type="checkbox"/> Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ► _____ Note. For a single-member LLC that is disregarded, do not check LLC; check the appropriate box in the line above for the tax classification of the single-member owner. <input type="checkbox"/> Other (see instructions) ►	4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3): Exempt payee code (if any) 5 Exemption from FATCA reporting code (if any) _____ <small>(Applies to accounts maintained outside the U.S.)</small>
	5 Address (number, street, and apt. or suite no.) 17800 North 85th Street	Requester's name and address (optional)
	6 City, state, and ZIP code Scottsdale, Arizona 85255-9306	
	7 List account number(s) here (optional)	

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note. If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

Social security number		
	-	-

Employer identification number									
8	6	-	0	7	4	1	2	2	7

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification Instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

Sign Here	Signature of U.S. person ► 
-----------	--

Date ► **April 12, 2017**

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at www.irs.gov/fw9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)

- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)

- Form 1099-C (canceled debt)

- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

*If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding?* on page 2.*

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

Note. If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States:

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity;
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust; and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Publication 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items:

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

Backup Withholding

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 28% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester.
2. You do not certify your TIN when required (see the Part II instructions on page 3 for details).

3. The IRS tells the requester that you furnished an incorrect TIN.

4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or

5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code* on page 3 and the separate Instructions for the Requester of Form W-9 for more information.

Also see *Special rules for partnerships* above.

What is FATCA reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code* on page 3 and the Instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account; for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Line 1

You must enter one of the following on this line; do not leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account, list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9.

a. **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

Note. ITIN applicant: Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040/1040A/1040EZ you filed with your application.

b. **Sole proprietor or single-member LLC.** Enter your individual name as shown on your 1040/1040A/1040EZ on line 1. You may enter your business, trade, or "doing business as" (DBA) name on line 2.

c. **Partnership, LLC that is not a single-member LLC, C Corporation, or S Corporation.** Enter the entity's name as shown on the entity's tax return on line 1 and any business, trade, or DBA name on line 2.

d. **Other entities.** Enter your name as shown on required U.S. federal tax documents on line 1. This name should match the name shown on the charter or other legal document creating the entity. You may enter any business, trade, or DBA name on line 2.

e. **Disregarded entity.** For U.S. federal tax purposes, an entity that is disregarded as an entity separate from its owner is treated as a "disregarded entity." See Regulations section 301.7701-2(c)(2)(iii). Enter the owner's name on line 1. The name of the entity entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner's name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on line 2, "Business name/disregarded entity name." If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

Subject: RE: Taser - Quote

Hello,

Your signed quote has been received. I will get this order processed right away. Taser orders can ship out and be delivered as quickly as within 2 weeks with some orders taking up to 4 weeks. This is dependent on what specific products are ordered and the inventory of these items. If it has been a week or two and you are curious if your order has shipped, please send me an email and I will be happy to check on the status and see if there is a FedEx tracking number available at that time!

- For all NON-SMART cartridge orders: 1-2 weeks for shipment.
- For any order with smart cartridges: 3-4 weeks (but know it will likely go faster)

Please feel free to reach out if you need anything else at all.

Thank you!

Subject: Taser - Quote

Importance: High

Rachel,

Hello,

Attached is the quote you requested. Taser requires a signed copy of this quote (no exceptions). If a PO needs to be issued by the department there is a line on the signature page that allows you to insert that PO number. You can either scan and email me back the quote, or fax the signed quote to the fax number provided below. Please note that I will ALWAYS send confirmation to your email on receiving your signed quote so that you know your order has been processed.

- Please ensure the billing and shipping addresses are correct. Thank you for choosing TASER!
- If you are a credited Police Department or hospital you will be billed Net-30 which means you have 30 days from the date on the invoice you receive to make payment. If you paid with a credit card, your card will be charged on the date of shipment!
- Please plan accordingly for training and on your needs of these products as orders can be delivered as quickly as 2 weeks and some can take up to 4 weeks.
